

Texas Conservative Alliance – was created to revive the spirit of true individualism and self-reliance for the citizenry of Texas. Over the past one hundred plus years in Texas the spirit of individual greatness, responsibility, self-reliance, ingenuity, freedom, and liberty has been suppressed and become non-existence in Texas. Through the process of corrupt legislative measures and political agendas, the citizens of Texas have experienced the proverbial “frog in the pot” syndrome. Individuals and citizens of Texas and this nation have, by their own choice handed over their God given rights as free individuals to a tyrannical system of government that is corrupt at its very core in Austin, Texas, and Washington D.C.

One only has to stop and take a deep look at themselves honestly and objectively to see clearly what has transpired and allowed this to happen. Many Conservatives or Republicans call themselves free men and free individuals but in fact do not recognize under the current system of government in the state of Texas and the US, everyone born in this state and country is born a slave. As a new baby or older adult citizen every citizen is now indebted for the rest of their lives to a corrupt and immoral system of government and taxation. The overreach of government at the state and federal level puts the British Government and Empire to shame as it was during the 1700’s in this country. The majority of the general populus has relinquished their responsibilities as individuals, parents and families and asked the government and those in power to take care of them!

This FACT is not easy to accept and most people reading this will not agree and accept this truth. The country has come a long way since 1776 and its beginning, but over the past 240 years it has morphed into something unbelievable and unstoppable according to the masses who have wholeheartedly accepted the current state of affairs as the norm.

If you are like minded and like me, you do not accept the current status of things as right, normal, legal, moral, fair and the list goes on. I for one do not believe it is impossible to turn the tide, but in fact demand that this ship is turned around before it sinks to the bottom of the sea of history and is forgotten forever. Sound crazy? Just look back into history at the great empires that collapsed in on themselves because of greed, lack of moral character, lack of vision, laziness and cowardness of the citizenry during those times, are you getting the picture now.

By now you may be either; mad, scared, shaking or ready to run back to the *norm* and hide! What does it take to right the ship and save it? It starts with me, you, your family and close friends. People have to take back control of their lives now! Now is the time to man up and take charge of your life and future for the sake of your family and the generations to follow.

If you are ready for this monumental challenge and to fight however long it takes, I welcome you on board with open arms to join with me and many others to fight the good fight. It is worth fighting for no matter the cost. Failure is not an option. The winners get to record history and tell their story! Get your pen and ink wells ready, be a part of the greatest journey and victory to restore our God given freedoms and liberty since 1776! Look forward to the day you can tell your story to your grandchildren!
